

Receive Wi-Fi signature and visual data

```
graph TD; A[Receive Wi-Fi signature and visual data] --> B[Wi-Fi Clustering: Finding Wi-Fi cluster similar to current Wi-Fi signature]; B --> C[Bounding Loop Closure: Visual comparison to frames within similar Wi-Fi clusters]; C --> D[Cluster Management: Assigning current frame to an available cluster or create a new cluster];
```

**Wi-Fi Clustering:**

Finding Wi-Fi cluster similar to current  
Wi-Fi signature

**Bounding Loop Closure:**

Visual comparison to frames within  
similar Wi-Fi clusters

**Cluster Management:**

Assigning current frame to an available  
cluster or create a new cluster
